Find a Contractor who is a registered Ameren Illinois Program Ally

Searching for a contractor to help with your energy efficiency improvements?

Ameren Illinois' Program Ally database makes it easy to find a qualified contractor in your area. This database allows you to search for registered Program Allies by geographic region or type of service.

Program Allies are contractors who have registered with Ameren Illinois and receive training and updates on our programs. These Program Allies will help you find the best solution for your energy efficiency needs.

Businesses participating in Ameren Illinois' energy efficiency program can also choose to install upgrades themselves or use other local contractors not registered with Ameren Illinois. However, because of their familiarity with the programs, Program Allies are well equipped to make your energy efficiency projects a success.
